

CRUNCH ECOMAXX CRE400.4 DSP

Pre-installed presets - suitable for every taste

There are 9 pre-installed presets on the DSP amplifier. They have been developed to adapt to three different vehicle sizes (S, M and L) and three individual listening preferences (Beats, Flat and Pop). Simply choose the preset that best suits your needs. The pre-installed presets can be selected via both the **DSP Master app** and the **DSP Master PC software**. Please follow the instructions at www.audiodesign.de/dsp

The preset with the number 1 is empty and can be created by you.

1. CUSTOM
2. S BEATS
3. S FLAT
4. S POP
5. M BEATS
6. M FLAT
7. M POP
8. L BEATS
